

RackMOD Expandable Disk Storage

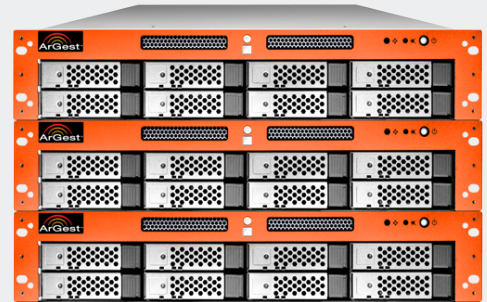

High Performance disk/RAID Storage

ArGest® RackMOD Expandable Disk Storage - High Performance and Quiet!

Expandable, quiet, high speed enterprise grade HDD disk storage with ArGest® Rack MOD comes in base model sizes of 16TB, 32TB, and 80TB.

These 2U rackmount assemblies can then be expanded up to a total of 14 chassis in addition to your original ArGest® Rack unit for total expandable capacity of up to 1.12Petabytes. You can start with a single unit and then add storage as your needs grow.

ArGest® RackMOD only uses enterprise grade components and drives for high performance and long life operation.
